PERSONAL STATEMENT

I am always looking for new ways to bring value to the teams I work with, I love collaborating with others, and my communication and teamwork skills help me to connect and empower others to easily to get things done. I've picked up a good mix of tech expertise in industries such as cybersecurity, development and a logical problem-solving approaches from my previous experience and roles which helps me stay sharp. Not only that, I'm adaptable, a natural problem solver, and have a strong sense of community and leadership. I'm excited to bring these skills to any team and help drive success.

Work Experience

2025-Present	**JPMorganChase, Bournemouth Technology Degree Apprentice**

As a technology degree apprentice working at one of the largest investment banks in the world, I have gained an invaluable set of skills and practises that can be utilized in almost any space. Currently I am in a software development team in full-stack development

Key Skills learnt.

• Industry Standard software development practises (CI/CD, Branching)

• Professional and clear communication amongst team members

• Building a strong personal brand

2024 June-August	**ABtec , Wigan Manchester Intern IT Support Engineer**

During my summer holidays, I was really interested in getting real world experience in the industry that I wanted to be apart of, more specific-ally, the cybersecurity side. During this time, I learnt an array of transferable skills and valuable industry knowledge

Key Skills learnt.
• Microsoft services - Servers, Active Directory, Intune

• I was able to interact with industry standard hardware and improved my networking skills, both software and hardware

• Experiencing enterprise level security solutions such as Sophos really improved my awareness to new cyber security threats.

Skills

- **Highly Motivated -** I'm a super motivated person, always striving for success. I love a challenge and am constantly on the lookout for chances to learn and improve. I work hard to achieve my goals and I've got a strong work ethic and a positive attitude, which I know will make me an asset to any team.

- **Communication and Teamwork -** I'm all about working together to achieve common goals. I firmly believe that communication is the cornerstone of any successful project or team, and I consistently strive to foster strong working relationships through open and honest dialogue.

- **Interest In CyberSecurity -** During my own time, I have spent countless hours learning and improving my knowledge in the cyber sector. I love finding bugs in systems, because of this I find learning and practising my skills in cyber labs such as HackTheBox and TryHackMe extremely fun. Not only this, the need for cyber security is ever growing, and I want to be able to bring these skills I am learning to have a real-world impact where-ver I work.
